I was ready to spend another \$50 in skin but I haven't refused to give Lilith any more money from this game. This is the reason you have failed. 1) You have failed to release new content entertainment.2) You don't sway the game and instead make new heroes overpowered for people to spend money on them. Once people have invested time and money gets scared. My time and money gets scared because this .3) Bugs have recently become ridiculous! Each patch several bugs.4) You give diamonds as gifts for our lost time but stylus gets lost when you give us 300 and we need 8,000 an average maybe get a 3 star rock congestion to become important.5) You don't listen or respond to the community of social media or anywhere! There is so much but I don't even know if you care. I'm going to try the new Skylanders game and retire the Soul Hunters, you base will continue to trend down unless you take drastic measures. Wish you luck! Dear player! Sorry for the wrong experience. We will balance and improve the game as much as we can do everyone could to enjoy it. If you have any good ideas, please let us know. And could you please tell us your Facebook name? Maybe we miss your message by accident, please forgive us for this. Have a nice day! Greetings, Customer Service: As I am very strict when it comes to games like this but this one I like. He had the gameplay and character that made me love the game yes there are some pugs like this one I found with Mariana if you kill him off quickly then he makes attacks he keeps going after his death, but she can't cope but honestly yes it's annoying but I find it funny but one last bad thing I wish that some characters like these that you pay money for might be in chest stylus but not as common because I'm a kid so I can't really spend money on it but I love this game you find the hero quick to have in a decent story the characters are awesome and cool looking I found that other g They are copying this game like the hero charge who I didn't like in comparison with this game but I'm almost a level 100 and I have only spent around a month or less and that is sorry my review it's a little long and thanks for reading this in the first expensive place to expensive hunters, Thank you for your support of Soul Hunters, if you find any bugs while playing, please contact our customer service via Facebook (@soulhuntersmobilegame), we will help them check and solve it. Wish you a nice day ^^CS:Tamia I played this game for 4 years and I vip 15 and over time they did nothing but out and buy packages as, New Events. There is no balance with the heroes and many players have claimed refunds of many towers to continuously acquire event buyers and cause an unbalanced gaming experience. The VIP system isn't worth spending your money on too. The rewards for becoming a vip lv1-lv15 are not worth it, all heroes and items from VIP Rewards are trash. Lilith banned some of the players who claimed strong refunds and recently were allowed back into the game. Lilith also has posted workers as players encourage spending. Players must also be wary of the spy tactics when recruiting to fight jen. Players will send all accounts from players' lines to fight guilt to ensure victory. Full customer support and people who can steal English speaking and their responses always seem like a rotation of scheduled responses. All in all, this game could be great but VEED still breaks these mobile games. Lilith Cares isn't for the fans, only the money's fans. Hi, Dear Hunters: Sorry to do any downsides to games, we'll continue to make progress and better. Do you have any suggestions to us? Then we can report to you, waiting for your new information. ^^s Developer, Lilith Gaming, was not awarded about its privacy practices and handling of data of Apple.
